

## Worship Player

This free worship player allows you to listen to selected music from the site while you are connected to the Internet and are using your computer. To open the player, simply click on the 'Worship Player' icon, located in the left-hand column of the website:  When the new window opens (*see screenshot below*) and loads, the music will automatically start playing.

Note: If you do not have Adobe Flash Player already installed then your web browser should ask you if you would like to install it or visit <http://www.macromedia.com/software/flash/about/>

### Main Player Window:

This player has a few simple buttons for its operation. Starting from the left of the player, you are able to:

- skip back to the previous track 
- play the currently selected track 
- pause the track 
- stop the track 
- skip to the next track 
- control the volume by sliding the slider left and right 
- mute the player 
- view more options 
- e-mail us directly 
- automatically go to our home page 

If you click on the options button the options menu will appear (*see screenshot below*) at the top of the window.

**Player Options Menu:**

This options menu allows you to:

- loop (repeat) the current track
- loop the entire playlist
- shuffle (random play) the songs
- change the buffer time (the time given to pre-load the tracks before playing)
- balance your speakers left to right
- change the color of the player.

To close the options menu click on the small 'x' in the square in the top right-hand corner.

Finally, to close the player when you are finished, simply close your browser window. If you have any further questions or requests, please feel free to [contact us](#).
