

Above the clouds, in all the skies
Above the rain, beyond all eyes
The sun does shine, forever bright
His love is an everlasting light

Through darkest nights, of hardest days
His shining light, brings forth our praise
His faithfulness, through thick and thin
Will always be, has always been

Our loving God, who shines within
Sent forth His Son, to die for sin
He can restore, our weary soul
He is the One, who makes us whole

The Son will come, down through the clouds
All will behold, and all will bow
He is our hope, come from above
Now our comfort, our Savior's love
