

Jesus My Saviour

**Jesus my Saviour and Jesus my friend
As a Shepherd You lead me to life without end
As Your sheep I must listen, to hear Your still voice
To green pasture You'll take me, where there's rest for my soul**

**When the enemy buffets, and tries to bring lies
I will stand firm in faith, and hold that shield high
As an angel of light, he will try to disguise
But I'll study Your word, and the truth recognize**

Chorus:

**You are the way and the truth and the life
Jesus You've risen, O You are alive
You are seated in heaven, and in You I abide
O I thank You for laying Your life down for mine**

**You have clothed me in garments, You have clothed me in white
I put on the Lord Jesus, and the armour of light
I demolish all things against God lifted high
And take every thought captive to obey the Christ**

**When I trust the Lord Jesus, my roots will spread out
And I need not be anxious in the year of drought
Why should I worry, I cannot do the least
But through prayer and thanksgiving You will meet every need**
