

Lord, You know, and You care

Help me know, You are there

You see all things, and You're in control

You are sovereign, all things You know

In every trial, and valley low

I can trust You, for You're on the throne

May I not be discouraged, when distress comes my way

For You are still good, You're my hope and stay

From age to age, You are still the same

Forever and ever, I choose to praise Your name
