

Father, please take all control  
I can't manage on my own  
Father, please take all my cares  
These burdens I cannot bear

Father, I give You my heavy load  
For You say Your load I can hold  
Father, I give You my anxious heart  
You know all things from the start

Father, I need Your grace  
Then all things I can take  
Father, I need Your power  
To stand firm every hour

Father, You are always good  
Forever Your love has stood  
Father, You're strong and mighty  
And You alone can save me

Father, thank You for the blood  
That Your Son shed in His love  
Father, thank You for Your mercy  
That You give so abundantly
